Education

SSC : 64.60%
Mahatma School Of Academics & Sports (MSAS) Mumbai (2016 - 2017)

HSC : 55.54 %
Mahatma School Of Academics & Sports (MSAS) Mumbai (2018 - 2019)

B.E : 8.30 CGPA
Ramrao Adik Institute of Technology (RAIT) Mumbai (2019 - 2023)

Technical Skills

- Java
- Spring Boot FrameWork
- Data Structures & Algorithms
- MySQL
- HTML & CSS

Other Skills

- UI/UX
- Figma & PhotoShop

Projects

Aug 2023
Personal Project — Code | Video

Compare Me Website

Built a Website that provides collected product information; allowing users to compare product prices and specifications in one place. Project involves scraping data from popular websites like Flipkart, Amazon, Croma, and Jiomart. Users can quickly compare product prices from these e-commerce website. Additionally, the user can compare a variety of products in this website(Java Spring Boot, MySQL, HTML, CSS).

2022-2023
B.E. - Final Year Project — Video

Smart Mirror

This system is used to detect the home intrusion activity using IOT based smart mirror. We will first receive an notification and then an video via Smartphone. This system can be used to protect the any other safety materials. Raspbian OS and the Raspberry Pi were used to build this model(Python, Raspberry Pi).

2021-2022
B.E. - Third Year Project — Code | Video

Grocery Store Android Application

Built a application using Android Studio and SqLite Database that depicts online shopping of Groceries. Using this application, Small and Big Shops can improve the efficiency of their services(Java, SqLite).

Certifications

Sept 2023
Certificate of completing 100+ Data Structure and Algorithm Questions on AlgoExpert.io (Certificate)

May 2022
Certificate of participating in the National Conference organized by CARE College of Engineering (Certificate)

Apr 2022
Certificate of completion Full Stack Web Development training and internship (Certificate)
